Price: **89,081.00 \$**

B2C card marketing solutions: B2C card marketing solutions refer to the various strategies and tools used by businesses to market and promote their products or services directly to consumers using cards as the primary medium. These marketing solutions aim to leverage the popularity and convenience of card transactions to reach and engage a broad customer base. One common B2C card marketing solution is the use of loyalty or rewards programs. This involves offering exclusive discounts, points, or other incentives to customers who use specific cards or make specific purchases. By linking these rewards to card usage, businesses can encourage repeat purchases and build customer loyalty.
