Mergers and Acquisitions in the Automobile Sector: Mergers and Acquisitions (M&A) in the automobile sector have been a pivotal force in shaping the industry's landscape, driven by the need for strategic growth, technological advancement, and diversification. Key themes driving these activities include investments in electric vehicles (EVs), connected, automated, shared, and electric (CASE) assets, and digital and software innovations. The landscape is influenced by factors such as technological advancements, supply chain resilience, sustainability goals, and the shift towards electric vehicles, which encourage companies to pursue acquisitions, joint ventures, and strategic alliances to stay competitive and secure a sustainable advantage.
