Price: **33,444.00 \$**

Stainless Steel Diamond Plate Cove base: Stainless steel diamond plate cove base protects walls from impact and creates a clean and smooth transition from wall to floor. Protek stainless steel diamond plate cove base consists of strips of stainless steel diamond plate sheet with a built-in cove bend that mounts to the wall with adhesive or mechanical fasteners. Outside corners are also available for wrapping corners, which allows the cove base to be installed in a continuous fashion. Diamond plate cove bases are supplied in standard lengths and cut to fit in the field by installers, which means no prior field measuring is required. Choose from several standard options below or inquire about custom options that meet your specific project requirements.

Features:

Manufactured from type 304 mill finish stainless steel diamond plate

Butt seams

Outside corners available for a continuous installation

Installed with adhesive or mechanical fasteners, pre-drilled holes available

Standard and custom heights available

Other stainless steel grades and finishes available

[illegible]
