Price: **49.00 \$**

Get Rid of Duplicate MSG Files with a Simple Solution: Are you worried about getting rid of duplicate MSG files? I have a perfect solution to remove duplicate MSG files, and that is SameTools MSG Duplicate Remover, which is the best solution to remove duplicate MSG messages (emails, attachments, etc) without loss of data. The tool is a standalone application and does not require MS Outlook to be installed on the computer. This software is compatible with every Windows OS (10, 11, 8, 8.1, 7), can be set to replicate its operation, or set the criteria by which duplicates MSG will be determined. You don't need technical knowledge to use the tool. Simply upload your MSG mailbox file or drop in at least the values into the panel on your computer, and it will take care of locating any (and all) duplicates and removing them.
