Address: **5335 Brystone Dr, 77041, Houston**

Price: **Check with seller**

TorqLite: From refinery turnarounds to offshore riser work, TorqLite delivers dependable bolting solutions tailored to demanding schedules and tight tolerances. Based in Houston, Texas, our team supports crews with a complete lineup built for torque, tension, and control in the field. Whether you need the power and precision of a hydraulic high torque wrench or the versatility of the RT series, IU-XL, and SU-XL tools, we help you match equipment to the job. For specialty applications, look to the HU tool and JN series, plus multipliers and tensioners that keep joints tight and predictable. Our Robo-Spider streamlines remote flange operations, while flange maintenance tools and pumps & accessories round out your kit. To reduce downtime over the long haul, ask about Extended warranty options, riser maintenance plans, and a flexible riser leasing program. Expect responsive support, clear guidance on tool selection, and gear that's ready when your crew is. Your project's success starts with the right torque. |

Address: 5335 Brystone Dr, Houston, TX, 77041, US |
