Address: **4947 Lockport Road Unit 3 Lockport New York, New York, Lockport**

Price: **800.00 \$**

Enhance Efficiency with CNC Tool Storage Solutions for Kenna Metal Holders: Uratech is a leading innovator in CNC tool storage solutions, designing and manufacturing high-quality products that cater to the needs of industries across the USA, Canada, and Mexico. We specialize in providing durable, reliable storage systems for all types of Kenna metal holders, including the KM 32, KM 40, KM 50, KM 63, and KM 80.

Superior Quality Materials

Our CNC tool storage units are built to last, made from cold-rolled, powder-coated steel that can withstand heavy-duty usage, supporting weights of up to 4,000 lbs. This makes them ideal for industrial environments where strength and durability are essential.

Precision and Protection

At Uratech, we understand the importance of maintaining the precision and longevity of your CNC tools. That's why all our tool storage products come with durable red nylon inserts. These inserts are specifically designed to protect your Kenna metal holders from scratches and damage, ensuring they remain in pristine condition for as long as possible.
