Skyline Orthopedics: At Skyline Orthopedics, patients find thorough musculoskeletal care that supports recovery from injury and relief from persistent joint pain in Orland Park, Illinois. From initial evaluation through post-operative follow-up, our team coordinates thoughtful treatment plans for athletes, active adults, and anyone aiming to return to daily activities with confidence. The practice offers comprehensive options, including elbow surgery, hip surgery, knee surgery, and shoulder surgery, along with sports medicine for sprains, tears, and overuse conditions. For shoulder concerns, procedures may include Shoulder Arthroscopy, Rotator Cuff repair, SLAP Repair, Proximal Biceps Tenodesis, Subacromial Decompression, AC Joint Reconstruction, Capsular Release, Latarjet Procedure, and Bony Instability Reconstruction. Hip Cartilage Restoration is available for select cases to support joint function and mobility. An Orthopaedic surgeon discusses goals, risks, and recovery timelines clearly, aligning care with each person's lifestyle. Ongoing rehabilitation, including orthopedic surgeon near me, helps strengthen and stabilize joints so patients can move better, feel better, and stay active in the long term.
