Address: **Dallas, Texas, 75207, USA, 448655, Dallas**

Price: **70.00 \$**

FDA approved Unwanted kit (MTP Kit) by mail in Texas, USA: An Unwanted kit (MTP) is a combination of two medications:

- mifepristone that works by temporarily blocking the action of progesterone,
- and misoprostol that stimulates uterine contractions.

Together, these medicines are used in clinical settings to manage specific early reproductive-health situations with a 98% success rate when used within 12 weeks of gestation.

MTP kits or Unwanted kits in Texas online provided by Homeabortionrx contain these two coordinated medicines that are FDA approved, undergo extensive quality checks.

And during the delivery, Homeabortionrx makes sure the information of the customer remains confidential and packaging discreet so patients aren't afraid to buy and use the pills in areas where it might cause them issues, Texas and all over the USA.

Because of these measures, people in Texas, including regions in the United States and across Europe, can rely on consistent product quality when these medicines are obtained through Homeabortionrx.
